

You know that your company's success is directly related to the quality of your customer service. Poor service is bad business! You know the importance of quality staff: without good employees, you can't deliver good service. When the daily ebb and flow of your business is adversely impacted by job vacancies from employee absences, vacations and terminations, your customer service suffers.

To remain competitive, you need every advantage, particularly with your most important asset - your employees. With everything that goes on in your business daily, the hiring process can become a nightmare, especially when you need to hire employees now! MCG Staffing can help.

How Does MCG Staffing Deliver Superior Service?

We realize that our clients and employees have many staffing alternatives. That's why we adhere to key guidelines when working with you, a process we call

The MCG Staffing 3 Points Service Approach

1) Consultative Staffing - We work with a client to fully understand his or her company culture and staffing needs. This consultative approach to your assignment involves working with you to identify and agree upon specific company needs so that together we define and formulate requirements beyond the minimum qualifications of a given position.

2) Mutual Match - We carefully compare a client's needs with that of our employee's experience, skills & qualifications, assessing whether a mutual fit exists: the client gains a more than competent employee, and the employee gains a working

environment that utilizes his or her unique strengths and abilities.

3) Customer 1st - To ensure that your experience with MCG Staffing is positive, we ensure constant contact with you and the employees we place with you, before, during and after every staffing assignment. We are not satisfied if you are not satisfied.
